This book is gold!

Reviewed in the United States on 20 January 2024

I devoured this book in just a couple days and used the information, specifically the Global Skills Matrix for the admin profession, to write my goals. I've been in the admin role for over 10 years and have spent most of the time trying to get out of the role instead of using the role to build my career. The resources and information in this book helped me see my path forward to a career in the admin field. If you feel stuck in your role or are looking to advance your career to EA or even CoS - GET THIS BOOK!

Our Foundation ISIPHO Admin

Changing Lives, One Person at a Time

In South Africa more than half of the youth (over 15 years old) have no money to pay for their tuition. This is why Anel Martin, Teri Wells and Lucy Brazier decided to start Isipho Admin in 2015, to help these young adults to gain the education that was being denied them, simply because of lack of funds.

Isipho means The Gift and every year the foundation selects, funds and prepares the best and brightest candidates for a career as an administrative professional. We set them up for future success, and provide opportunities where none existed.

Throughout the year we organise prize draws, gala dinners, and various other events to help raise money for this worthy charity.
